

Gender pay and bonus reporting statistics for individuals employed by Element Materials Technology Environmental UK Limited at 5 April 2021.

The gender pay gap explained:

A pay gap is the difference in median or mean pay between two groups within a workforce. It is not to be confused with equal pay. This is a different matter and is concerned with being paid equally for the same or similar work. Below we will consider the gender pay gap.

At Element Materials Technology Environmental UK Limited, we are committed to creating a diverse and inclusive place to work and to providing equality of opportunity across our organisation.

At Element Materials Technology Environmental UK Limited, salaries are the same for men and women in the same or similar roles.

Element Materials Technology Environmental UK Limited Mean Hourly Gender pay gap (as at 5 April 2021)	18.1%
Element Materials Technology Environmental UK Limited Median Hourly Gender pay gap (as at 5 April 2021)	22.7%

The mean hourly pay of all our female employees in the UK is 18.1% lower than that for all our male employees, with the median hourly pay sitting at 22.7% lower.

Percentage of male and female employees in each pay quartile (as at 5 April 2021)

The charts above show the gender distribution across Element Materials Technology Environmental UK Limited in the UK in four equally sized pay quartiles, each containing 82 employees.

Overall, women represent 32% of Element Materials Technology Environmental UK Limited employees. Women are less represented in the higher pay quartiles due to proportionally more men occupying senior level roles.

Bonus difference between all women and men	Mean	Median
Bonus (in 12 months ending on 5 April 2020)	41.1%	0%

The mean bonus pay of all our female employees in the UK is 41.1% lower than that for all our male employees, due to the fact there are more men than women in senior positions and senior positions attract higher levels of bonus. There is no gap in terms of the median bonus pay.

We are committed to attracting more women into our company and to encouraging female colleagues to progress their careers, such that we increase the gender balance at all levels within Element Materials Technology Environmental UK Limited. With this goal in mind, we continue to invest in leadership training, interview skills training and recruitment technology. We will also continue to conduct succession planning exercises in order to identify high potential female colleagues. These initiatives underscore our commitment to diversity and inclusion.
