MECHANICAL

Valid To: February 28, 2027

Certificate Number: 5669.09

In recognition of the successful completion of the A2LA evaluation process, accreditation is granted to this laboratory to perform the following tests on metals, alloys, welded joints, manhole tops, rubbers, and elastomers:

| <u>Test(s):</u>                                                             | <u>Test Method(s):</u>                                                                         |
|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|
| <b>Corrosion Test:</b>                                                      |                                                                                                |
| Susceptibility to Intergranular Attack                                      | ASTM G28 Method A,<br>ASTM A262 Practice A, B&E                                                |

# Accredited Laboratory

A2LA has accredited

**ELEMENT DOHA LLC**

*Doha, Qatar*

for technical competence in the field of

**Mechanical Testing**

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017 *General requirements for the competence of testing and calibration laboratories*. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

Presented this 18<sup>th</sup> day of March 2025.

A blue ink signature of Mr. Trace McInturff, written over a horizontal line.

Mr. Trace McInturff, Vice President, Accreditation Services  
For the Accreditation Council  
Certificate Number 5669.09  
Valid to February 28, 2027

*For the tests to which this accreditation applies, please refer to the laboratory's Mechanical Scope of Accreditation.*
