

Schedule

Element Testing Services (S) Pte Ltd
4010 Ang Mo Kio Avenue 10
#03-08 to 12, Techplace 1
Singapore 569626

Certificate No : PD-2010-12
Issue No : 16
Date : 11 December 2025
Expiry of Certificate : 27 November 2026
Page : 1 of 23

The accreditation covers the following scope:

- ISO/IEC Type 1b Certification scheme consisting of type test of a product representative of production and subsequent batch inspection
- ISO/IEC Type 2 Certification scheme consisting of type test and market surveillance
- ISO/IEC Type 5 Certification scheme consisting of type test of a sample representative of production, inspection of factory quality management system and routine surveillance of the management system and samples of the product

S/N	Product Description	Test Standard Number	Test Standard Description	Type
1	Raised Floor Panel	BS 476 Part 4:1970	Fire tests on building materials and structures. Non-combustibility test for materials.	2
		BS 476 Part 11:1982	Fire tests on building materials and structures. Method of test for assessing the heat emission from building materials.	
		EN 13501-1:2018	Fire classification of construction products and building elements. Classification using test data from reaction to fire tests	
2	Composite Panel (Cladding to External Wall)	BS 476 Part 4:1970	Fire tests on building materials and structures. Method of test for fire propagation for products.	5 or 2
		BS 476 Part 11:1982	Fire tests on building materials and structures. Method of test to determine the classification of the surface spread of flame of products.	
		BS 476 Part 6:1989 + A1:2009	Fire tests on building materials and structures. Method of test for fire propagation for products.	
		BS 476 Part 7:1997	Fire tests on building materials and structures. Method of test to determine the classification of the surface spread of flame of products.	
		NFPA 285:2023	Standard Fire Test Method for Evaluation of Fire Propagation Characteristics of Exterior Wall Assemblies Containing Combustible Components	
		EN 13501-1:2018	Fire classification of construction products and building elements. Classification using test data from reaction to fire tests

		EN 13501-1:2018	Fire classification of construction products and building elements Classification using test data from reaction to fire tests.	
		BS EN 45545-2:2013 + A1:2015 BS EN 45545-2:2020 BS EN 45545-2:2020 + A1:2023	Railway applications – Fire Protection on railway vehicles Part 2: Requirements for fire behaviour of materials and components	
		EN 17084:2018/AC:2020 Method 1	Railway applications - Fire protection on railway vehicles - Toxicity test of materials and components	
		EN ISO 5659-2:2017	Plastics — Smoke generation — Part 2: Determination of optical density by a single-chamber test	
		BS 476 Part 22:1987	Fire tests on building materials and structures. Methods for determination of the fire resistance of non-load bearing elements of construction	
		AS 1530.4:2014	Methods of fire tests on building materials, components and structures Part 4: Fire resistance test of elements of construction	
		EN 1364-1:2015	Fire resistance test for non- loadbearing element – Walls.	
		ASTM E119 – 24	Standard tests methods for fire tests of building construction and materials	

Schedule

Certificate No.: PD-2010-12

Issue No.: 16

Date : 11 December 2025

Page : 23 of 23

Foreign critical location :

Nil

Country where certificates are issued:

Singapore, Malaysia,
People's Republic of China,
Hong Kong, United Arab Emirates,
United Kingdom

Uncontrolled If Printed
