issued by

United Kingdom Accreditation Service

2 Pine Trees, Chertsey Lane, Staines-upon-Thames, TW18 3HR, UK

 Accredited to ISO/IEC 17025:2017	Warringtonfire Testing and Certification Limited, trading as Warringtonfire	
	Issue No: 066 Issue date: 07 November 2025	
	Chiltern House Stocking Lane Hughenden Valley High Wycombe Buckinghamshire HP14 4ND	Contact: Mr J Jones Tel: +44 (0)1494 569 750 E-Mail: John.Jones@element.com Website: www.element.com
Testing performed by the Organisation at the locations specified below		

Locations covered by the organisation and their relevant activities

Laboratory locations:

Location details		Activity	Location code
Address Chiltern House Stocking Lane Hughenden Valley High Wycombe Buckinghamshire HP14 4ND	Local contact Mr J Jones Tel: +44 (0)1494 569 750 E-Mail: John.Jones@element.com Website: www.element.com	Testing for fire resistance, structural integrity and performance, including airborne sound insulation of building components Mechanical testing of timber products and fasteners	A

Flexible Scope

The laboratory is accredited to ISO/IEC17025:2017 for testing activities in accordance with the standards included in the schedule listed below with a flexible scope managed through the implementation of in-house procedure E-FS-QU-AC/FR-HW-SOP 101382. This may include revised standard methods and technically equivalent tests on the same or similar product types against standards, or customer-specified methods, that are not specifically listed in this Schedule, providing that:

- (1) The method or standard does not introduce new principles of measurement.
- (2) The method or standard does not require measurements to be made outside the parametric boundaries defined within the standard specifications already accredited and detailed within this Schedule of Accreditation.

Information about flexible scopes of accreditation is available in UKAS document GEN 4:October 2019, EA 2/15 M:2019 and ILAC G18:04/2010

Area covered by the flexible scope:

Fire resistance, smoke control and airborne sound insulation testing on products and materials detailed below.

	Torsional strength of screws of screws	BS EN ISO 10666:1999 Clause 4.2.3	A
	Torsional resistance of driving in screws	BS EN 15737:2009	A
	Determination of the yield moment of dowel type fasteners	BS EN 409:2009	A

****Appendix – BS EN 13501 Fire Classification:**

Introduction

The definitive statement of the accreditation status of a testing laboratory is the Accreditation Certificate and the associated Schedule of Accreditation. This Schedule of Accreditation is a critical document as it defines the extent of the activities for which the organisation holds accreditation.

BS EN 13501 Fire Classification Requirements:

Such classifications shall be based on recognised Direct Field of Application (DIAP) or Extended Field of Application (EXAP) that refers to a standard prepared by or approved by CEN/TC 127 "Fire safety in buildings" or a product standard which includes full information on testing to support the EXAP.

The schedule entry does not cover any Expert judgements (i.e. an opinion that is not considered/covered by an EXAP standard and/or is only based on the experience of an individual(s)).
